## WEEKLY

OSC MONTHLY MEETING - attended the OSC Monthly Meeting and the Tuesday COOP exercise/training. This Tuesday, we donned PPE Level A and exhausted a tank of air.

CORE NAR - participated in the meeting to discuss the Regional answers and score pertaining to this year's CORE NAR. I had assisted in answering and scoring for Element 2: EPA Regional and National Response Structures and Field Assets, Element 9: Regional Emergency Operations Center Logistics, Bio Response, and General CBRN.

CORPUS EXERCISE - participated in a meeting further planning of the annual OSC Exercise to be held in Corpus Christi, Tx.

OSC TRAINING - evaluated all the courses that are Required for OSCs per the latest guidance. This evaluation is to assist managers in determining the appropriate process of tracking and maintaining records for training.

REGIONAL ICS - began compiling the personal who signed up for continuance of their PAVE position on the R6 IMT.

WESTBANK - assisted the site team attorney in reviewing the new area of responsibility map proposed by the site's RP, Johns-Manville.

BIOWATCH - continued coordination with START on regional project status and future plans. And continue to gather information pertaining to updating the R6 OSC response to suspicious packages identified by the building management.

NIMS INTEGRATION TEAM (NIT) - no new develops. ICS courses scheduled to be offered are being posted on TrainEx. Outstanding issue is the development of several new Objective terms by senior management and deciding the definitions as they relate to ICS and the upcoming Incident Management Handbook almost completed.
